## Thanks to our sponsors

The Australian Veterinary Association Limited (AVA) and New Zealand Veterinary Association (NZVA) wish to thank our sponsors for their continued support.
Welcome from the Presidents

On behalf of the Pan Pacific Veterinary Conference Scientific Committee, your respective Boards, and all the staff and volunteers who have helped put this together, welcome to the premier continuing education and social event for veterinarians in Australia and New Zealand.

This week is a rare opportunity for friends and colleagues from both sides of the Tasman to come together and share best practice, extend knowledge, skills and perspectives, explore latest developments within the profession, and grow our network.

This week in Brisbane is the ideal platform to enhance collegiality and openly discuss topical issues affecting us and wider society, especially as we look towards achieving a stronger and more sustainable profession.

Throughout the conference, take the time to consider your role within the profession and the opportunities that are open to you. As you hear from some incredible speakers, discuss the diverse work veterinarians do, reflect on the many ways in which you contribute to your local community, the economy, wider society and to the health and wellbeing of all.

We want to meet as many of you as possible, come to understand the world in which you work, and discuss what your Association can do for you throughout your career.

As well as this, the latest and greatest in veterinary products and services are on show in the trade exhibition. Finally, at the end of a long and inspiring day, we look forward to joining you at one of the variety of social events on offer.

Thanks from the Convenor

Coordinating all our speakers and SIGs, trade groups and our members requires a large amount of work from people who kindly and graciously volunteer their time. Without the tireless work of your SIG conference coordinators this conference would not be possible. This year we engaged the help of the NZVA and their respective SIBs to work with the SIGs and the conference committee. There are simply too many names from these groups to mention here, but I hope it is suffice to say that I am greatly appreciative of the contributions from the SIG/SIB coordinators. Their ideas and contributions form the basis of each stream, which the committee then tie together in a big picture approach for our One AVA conference.

Blending ideas, disciplines and interests from SIGs/SIBs and from across the Tasman takes vision, creativity, diplomacy, and sometimes patience. The conference committee have provided all this in their ongoing support and input over the past twelve months. They are the backbone of the scientific program, allowing the convenor to join the dots in a logical, sensible and harmonious manner.

The Events team turn the scientific conference into a special week that encompasses the benefits of learning with the opportunities of trade and the enjoyment of socialising, in a magical way that appears effortless and seamless but is a very hard slog!

We have a great team and I hope you enjoy the outcome of our team effort in Brisbane this year. The conference covers a wide range of topics and special interests and we are confident the week will be satisfying and rewarding for all our delegates and attendees.

AVA and NZVA stand – member benefits
Stand 201, Exhibition Hall 1, Brisbane Convention and Exhibition Centre
Visit the AVA and NZVA to learn more about your professional associations. Meet the staff, volunteers and teams that work for you.

AVA Wellness Centre
Outside Exhibition Hall 1, Brisbane Convention and Exhibition Centre
The AVA Benevolent Fund invites you to the Wellness Centre to participate in a wellness check, have a blood check for Q fever and rickettsial fever, and view the AVJ photography competition winners. There will be early morning yoga, and Bupa will be providing head and neck massages.

Badges
As a security requirement please wear your name tag at all times within the Brisbane Convention and Exhibition Centre to access sessions, the exhibition and catering.

Animal welfare forum
Sunday 24 May 2015, 4.30pm–6.00pm
Location: Great Hall Doors 1 and 8, Brisbane Convention and Exhibition Centre
Animal welfare is a core value for veterinarians, but it can be hard for the AVA and NZVA to make a difference as organisations on specific animal welfare issues. Join members and non-members for an inspirational exploration of our common values around animal welfare and help create new insights for our profession. The conversation will be facilitated by Mark Strom, a strategic thinker and story-teller with a PhD in the history of ideas. All welcome.

Annual General Meeting and AVA Awards Ceremony
Wednesday 27 May 2015, 4.00pm–6.00pm
Location: Great Hall Doors 1 and 8, Brisbane Convention and Exhibition Centre
Hear about the year that was from AVA’s elected representatives and then stay on to celebrate with your fellow members being honoured in this year’s awards ceremony.

Convincing the public to pay vets what they’re worth! Shaping your association
Thursday 28 May 2015, 4.00pm–5.30pm
Location: Great Hall Doors 1 and 8, Brisbane Convention and Exhibition Centre
Join media personality Jane Caro and some of your creative colleagues for a veterinary twist on The Pitch segment from TV’s Gruen Planet. Vet teams will compete to come up with their most persuasive campaigns to convince the public to pay vets what they’re worth (their weight in gold of course!). You can also raise other topics for discussion, or ask questions of AVA and NZVA Boards and Managers.

2015 Pan Pacific Veterinary Conference
The region’s premier veterinary event – panpac2015.com
**Banking**
Banking hours are usually 9:00am–3:00pm, Monday to Thursday and 9:00am–5:00pm on Fridays. There are two ATMs situated on the main exhibition concourse on the Merivale Street side of BCEC and one located next to Olio Cafe and Bar on the Grey Street ground level. Other ATMs are available nearby in the South Bank precinct.

**Catering**
Morning and afternoon teas, lunches, welcome reception and happy hour catering is provided in the Exhibition. Afternoon tea on Thursday will be served in the foyer.

**Child care**
There are no child care facilities onsite at the Brisbane Convention and Exhibition Centre.

**Cloak Room**
The information desk on Merivale Street and information desk on Grey Street both have cloakroom facilities to assist with storing personal items.

**Education posters**
Tuesday 26 May 2015, 1.30pm–2.20pm Plaza Level Brisbane Convention and Exhibition Centre
Join us at the VERA education poster session for a brief introduction to various researcher’s work in veterinary education, research and academia, and enjoy the opportunity to question them further.

**Gala Dinner**
Thursday 28 May 2015, 7:00pm–12 midnight Plaza Ballroom, Brisbane Convention and Exhibition Centre
Ahoy there all Admirals, Pirates, landlubbers, mermaids, spirits and creatures of the deep. Join us for a night of celebration on the high seas as we search for hidden ‘Guild’ treasure and swashbuckling adventure.

Tickets may still be available nearby in the South Bank precinct.

**Internet zone**
Visit the Veterinary Information Network (VIN) internet zone and keep in touch with your family and friends, and check-in with work.
As a special offer, VIN will extend the normal 30-day free trial membership to 60 days for AVA/NZVA members who attend the 2015 Pan Pacific Veterinary Conference and who register for a free trial before 30 June 2015. Attendees who are current VIN members can request a $58 credit toward a VIN continuing education class.

**Messages**
Outside Exhibition Hall 1, Brisbane Convention and Exhibition Centre
Exhibition prize winners, program changes, messages from delegates and exhibitors can be left on the message board.

**Mobile phone app**
To download the 2015 Pan Pacific Veterinary Conference mobile app by typing http://panpac2015.sched.org/ into the internet search bar on your android or apple smartphone.

**Registration desk**
Merivale Street entrance Brisbane Convention and Exhibition Centre
Tickets for workshops, field trips and social events may be purchased from the registration desk as there is a waiting list for some events.

**Trialling questions for the National Veterinary Examination**
Exhibition Hall 1, Brisbane Convention and Exhibition Centre
Many veterinarians trained overseas are required to sit the National Veterinary Examination to check that they are of the same standard as those trained in Australia and New Zealand.
Throughout the conference, the Australasian Veterinary Boards Council (AVBC) is asking Australian and New Zealand vets to trial some questions to enable them to collect data to determine their suitability for the examination.
One (1) VetEd point is available for each set of questions completed. Trialling is anonymous.
Help AVBC maintain the high standard of veterinary practice in Australia.

**VetEd / My CPD points**
The Pan Pacific Veterinary Conference offers delegates 28 hours of continuing professional development with up to 28 CPD points over the full week.
All delegates can earn extra points by attending one of the post-conference workshops and field trips. AVA members’ VetEd points will be automatically awarded if they include their membership number when registering, and can earn extra points by completing trials at the National Veterinary Examination stand.
NZVA members have free access to MyCPD online to track and manage their CPD points.

**Wi-Fi**
Free Wi-Fi. Connect to BCEC Link on your device to access this service.

---

Fill your passport with stamps* and drop it into the passport competition barrel at the AVA stand by 10.30am on Thursday, 28 May 2015.

You will receive a passport book in your conference satchel.
Simply take a meander and visit the exhibitors’ stands listed in the passport and peruse the products and services on offer. Once you are up-to-date with the latest veterinary products or services, ask the exhibitor to stamp your passport. Fill your passport with stamps* and drop it into the passport competition barrel at the AVA stand to WIN WIN WIN!

* You need a minimum of four (4) stamps per page to enter the draw.
Sponsored industry breakfasts

Start your day with one of our popular complimentary breakfast sessions and hear from industry experts. Breakfast is provided and you must have registered. If you have registered and are unable to attend please return your ticket to the registration desk, as there is a waiting list for these events.

You’re looking at the world’s most sophisticated AFR diagnostic tool

ANALLERGENIC AN 18

Precise nutrition for cats and dogs
Workshops and field trips

Australian Veterinary Association Practice Management (AVAPM) – Exclusive Insights workshop
Friday 29 May 2015, 9.00am–5.00pm
Location: Room B1, Boulevard Level, Brisbane Convention and Exhibition Centre
Based on the AVAPM Exclusive Insights tours, we give you a look inside a variety of practices and how they function successfully.
An in-depth look at benchmarks, marketing, HR, staff incentives and more. We look at best practice initiatives and Tony Thelander will share easy formulas to help you assess your own staff production values.
A must for all practice managers and owners! Bring a colleague for free.

ASAVA – small animal veterinarians workshop
Friday 29 May 2015, 9.00am–5.00pm
Location: Room P5, Plaza Level, Brisbane Convention and Exhibition Centre
Topic 1: Latest advances in open wound management with Dr Stephen Fernside
Topic 2: Complex wound closures with Dr Phil Moses
This workshop is strictly limited to 40 delegates only.

Australian Veterinary Behaviour Interest Group (AVBIG) – shelter welfare, enrichment and adoption enhancement
Friday 29 May 2015, 9.00am–4.00pm
Location: RSPCA Queensland, 139 Wacol Station Road, Wacol
Go behind the scenes at the RSPCA in Brisbane and hear Meghan Herron present a summary on her research into kennel enrichment programs and their effectiveness for shelter dogs in the USA plus live demonstrations on how to train better kennel behaviour. Bus departs from Brisbane Convention and Exhibition Centre at 9.00am sharp and returns at 4.00pm.

Australian Veterinarians in Public Health (AVPH) – one health workshop
Friday 29 May 2015, 9.00am–4.30pm
Location: Room P2, Plaza Level, Brisbane Convention and Exhibition Centre
This workshop presented by Simon Reid (University of Queensland School of Population Health) will provide an introduction to One Health concepts. It will include scenario-based problem solving to address issues in bioscience, epidemiology, emerging infectious diseases and the veterinarians’ role in One Health.

Unusual Pets and Avian Veterinarians (UPAV) and Commercial Poultry Veterinarians (CPV) – oh no, it’s a sick chook, what next?!
Friday 29 May 2015, 9.00am–1.00pm
Location: General Laboratory, TAFE Southbank, Brisbane
This half day session presented by Alex Rosenwax and Susan Bibby follows on from two webinars available from 22nd April and 13th May and is designed to enhance practitioners’ understanding of backyard poultry health.

Equine Veterinarians Australia (EVA) – pre-purchase examination seminar
Friday 29 May 2015, 9.00am–4.30pm
Location: P1 Room, Plaza Level, Brisbane Convention and Exhibition Centre
The PPE seminar will cover communication with the purchaser and vendor, the 5 stage examination video, PPE radiology and endoscopy, and advice on how to avoid litigation. It is a must for equine veterinarians and mixed practitioners alike.

Braun – Australian Cattle Veterinarians (ACV) – theileriosis workshop
Friday 29 May 2015, 9.00am–5.00pm
Location: Mantra South Bank, 161 Grey Street South, Brisbane
Learn the latest on research, epidemiology, diagnosing, economics and treatments for bovine theileriosis.

Braun – Australian Veterinary Acupuncture Society (AVAS) – geriatric and orthopaedic patients
Friday 29 May and Saturday 30 May 2015, 9.15am–4.30pm
Location: General Laboratory, TAFE Southbank, Brisbane
Dr Michelle Tilghman is delivering a session on geriatric and orthopaedic patients: expanding the envelope by treating with acupuncture, prolotherapy, trigger point and rehabilitation techniques.
For more information and program details visit www.acuvet.com.au.

Price per day
AVA / NZVA member: $420
SIG / SIB member: $330
AVA / NZVA student member: $295
Non-member: $840

Monday 25 May 2015, 7.30pm–9.30pm
Location: The Ship Inn, corner Stanley and Sidon Streets, Southbank Parklands, Brisbane
Meet colleagues from all areas of the cattle veterinary profession for a casual dinner. Two-course buffet menu and cash bar available.

Equine Veterinarians Australia (EVA) – Equine and Dine
Monday 25 May 2015, 7.30pm–9.30pm
Location: The Shore Inn, corner Stanley and Sidon Streets, Southbank Parklands, Brisbane
Meet colleagues from all areas of the profession with an interest in equine for a stand up evening (not a sit-down dinner). Price includes drinks (excluding spirits) and substantial canapés.

Thursday 28 May 2015, 7.00pm–late
Location: Plaza Ballroom, Brisbane Convention and Exhibition Centre
Ahoy there all Admirals, Pirates, landlubbers, mermaids, spirits and creatures of the deep. Join us for a night of celebration on the high seas as we search for hidden ‘Guild’ treasure and swashbuckling adventure.

Delegates and accompanying guests: $180. Non-delegates: $295
Dress: High seas inspired
Veterinarians in Education, Research and Academia (VERA) – Tapas in the Tropics
Tuesday 26 May 2015, 7.30pm–10.30pm
Location: Ole Restaurant B12 Little Stanley Street, South Bank, Brisbane
VERA’s Pan Pacific Conference dinner has been ably organised by Rob Hedlefs. We hope to have all members of VERA including our colleagues from across the Tasman join us.

- AVA / NZVA member: $60
- SIG / SIB member / partner / guest: $60
- AVA / NZVA student member: $60
- Non-member: $120

ASAVA recent graduate dinner (2012–2014)
Tuesday 26 May 2015, 7.00pm–11.00pm
Location: Room A2, Arbour Level, Brisbane Convention and Exhibition Centre
A casual dinner for 2012–2014 graduates to share stories of their first years in practice with members of the ASAVA executive committee and peers. This is an ASAVA / CAS member and partners-only event.

- ASAVA / CAS member: complimentary (limited numbers)
- ASAVA / CAS guest and non-veterinarian: $110

Australian Veterinarians in Industry (AVI) – annual dinner and drinks
Tuesday 26 May 2015, 7.00pm–10.00pm
Location: Ahmet’s Turkish Restaurant, Shop 10/168 Grey Street, South Bank, Brisbane
Catch up and meet new colleagues in industry for a fun and casual Turkish feast with belly-dancers.

- AVA / NZVA member: $85
- SIG / SIB member / partner / guest: $85
- AVA / NZVA student member: $85
- Non-member: $170

Australian Veterinary Behaviour Interest Group (AVBIG) dinner
Tuesday 26 May 2015, 7.30pm–9.30pm
Location: Bamboo Basket Chinese Restaurant, Shop 1003–1004/199 Grey St, Brisbane
Come and join us for a casual banquet style dinner with colleagues. The venue is at the heart of vibrant Southbank and within easy walking distance from the Brisbane Convention and Exhibition Centre.

- AVA / NZVA member: $60
- SIG / SIB member / partner / guest: $45
- AVA / NZVA student member: $45
- Non-member: $120

ASAVA informal dinner – small animal group catch-up
Wednesday 27 May 2015, 7.00pm–10.00pm
Location: The Fox Hotel, (Verandah Room) Corner of Hope & Melbourne Street, South Brisbane
A five minute leisurely walk from Brisbane Convention and Exhibition Centre.
Enjoy a glass or three with your colleagues from over the water at this very informal event. Bookings are essential as numbers are limited.

- ASAVA / CAS member: $75
- Non-member: $110

Australian Veterinarians for Animal Welfare and Ethics (AVAWE) dinner
Wednesday 27 May 2015, 7.00pm–10.30pm
Location: Alegría Mediterranean Bistro and Bar, Shop 11, 20 Park Road Milton, Brisbane
Meet colleagues with an interest in animal welfare and ethics for a sit-down fine dining experience and enjoy hearing from our distinguished guest speaker. Costs include a three-course meal and beverages.

- AVA / NZVA member: $90
- SIG / SIB member / partner / guest: $80
- AVA / NZVA student member: $80
- Non-member: $180

- AVA / NZVA student member: $100
- Non-member: $290

Australian Veterinary Orchestra charity concert
Wednesday 27 May 2015, 7.30pm–9.00pm
Location: Great Hall Door 8, Brisbane Convention and Exhibition Centre
Come join us for a musical feast and top class entertainment.
Joining forces with Brisbane’s leading community orchestra, the Brisbane Philharmonic Orchestra, the Australian Veterinary Orchestra will provide an evening of entertainment not to be missed. The event has been made possible by sponsorship from Hills Pet Nutrition, Sparkline Technologies and RxWorks. Any funds raised will be donated to the AVA’s Benevolent Fund to promote veterinary wellbeing.

If you have musical talent and play an orchestral instrument please feel free to contact us and be involved. The AVO has a core mission of enhancing veterinary wellbeing and mental health through music.

Australian Veterinary Association – koala and river cruise
Friday 29 May 2015, 10.00am–3.00pm
Location: Meet at Brisbane Convention and Exhibition Centre entrance
Finish your conference with colleagues and family on an entertaining narrated journey up the Brisbane River to Lone Pine Koala Sanctuary with two-and-a-half hours to spend with Aussie wildlife.

- AVA / NZVA member: $68
- Children (3–13): $38
- AVA/NZVA student member: $58
- Guests/overseas veterinarians: $68
- Veterinarians (non-members): $136
Keynote speakers

Professor David E Anderson
David is a Professor and the Head of Large Animal Clinical Sciences at the University of Tennessee’s College of Veterinary Medicine. He was the Founding Director of the International Camelid Institute based in the College of Veterinary Medicine at Ohio State University and he recently founded the International Academy of Farm Animal Surgeons where he is the current Director. David’s research interests include surgery, pain management and biomaterials.

Kelly Baltzell
Kelly is President and CEO of the Beyond Indigo family of companies, which she founded in 1997. Under her leadership, Beyond Indigo companies have developed all types of veterinary websites (small animal, exotic, specialty, equine, mixed animal) that now reach millions of people each year. Kelly’s depth of experience, passion and her visionary approach to the industry make her an unparalleled leader in Internet marketing.

Dr Daniel L Chan
Dan received his Doctor of Veterinary Medicine qualification from the School of Veterinary Medicine at Cornell University and then completed a small animal internship at the Animal Medical Center in New York City. He joined the faculty at the Royal Veterinary College in London in 2005, and is now Senior Lecturer and Head of Section in Emergency and Critical Care. Dan has also been the Editor-in-Chief of the Journal of Veterinary Emergency and Critical Care.

Associate Professor Allison Stewart
After graduating from the University of Melbourne, Allison has spent the past 15 years in the USA, initially as an Equine Internal Medicine Resident at Ohio State University, where she completed a MS and became a Diplomate American College of Veterinary Internal Medicine (ACVIM). She has recently returned to Australia. Her clinical interests include: endocrinology, fungal disease, neurology, neonatology and ultrasound.

Assistant Professor Meghan Herron
Meghan works in the Department of Veterinary Clinical Sciences and is the current head of the Behavioral Medicine Clinic at Ohio State University Veterinary Medical Center. She provides behavioural rehabilitation services to owners of companion animals with issues including, but not limited to, human-directed aggression, inter-pet aggression, separation anxiety, inappropriate elimination, fears, phobias, compulsive behaviours and cognitive dysfunction.

Refer to pages 44–51 for the conference program

Stream: Cattle
Sessions:
» Decision-making in abdominal surgery – cow-side diagnostic techniques
» Updates on intestinal diseases and surgical management
» Updates on caesarean section in cattle – optimising outcomes
» Chemical restraint and anaesthesia in field settings
» Pain management for surgery and lameness
» Field fracture repair techniques
» Outcomes of respiratory surgery in cattle
» Theeloscopy and restoration of milk flow
» Surgical restoration of breeding bulls

Stream: Practice management
Sessions:
» Alternative advertising on Facebook – using Facebook’s advertising to market your business
» Inside Facebook insights – understanding Facebook data to improve your page and bottom line
» What has happened lately with cloud technology?
» Websites – what are they today?
» Google Analytics – it’s like lab results for websites
» Searches are on fire! Are you keeping up?

Stream: Small animal
Sessions:
» Raw food diets, what’s the story?
» Feeding the critically ill patient
» Approach to the bleeding patient
» Approach to the collapsed patient
» Challenges in fluid therapy
» Managing severe trauma – case discussion
» So you think this pug is cute... what can go wrong?

Stream: Equine
Sessions:
» Pituitary pars intermedia dysfunction – revitalising the geriatric horse
» Equine Metabolic Syndrome – new ideas for diagnosis and management
» What’s your neurologic diagnosis? Video cases
» Fungal disease in horses – diagnosis and treatment
» Equine cytology – a case based approach for the practitioner
» Searching for the inflammatory focus – a case based approach

Stream: Behaviour
Sessions:
» The bad and the ugly of confrontational training methods
» Animal shelters – addressing behavior and welfare issues in kennelled dogs
» Cognitive dysfunction and behavior changes in the aging dog
» Let’s talk excrement – feline elimination problems
» Bite prevention in small animal practice – how low stress handling can change your life
» Starting off on the right paw
» Starting off on the right claw
» Don’t leave me alone!
» Top 10 dog behavior myths
» Canine neurophysiology
» Understanding canine aggression
» Feline aggression – common human-directed problems

2015 Pan Pacific Veterinary Conference
The region’s premier veterinary event – panpac2015.com
Professor Josh Slater
Josh Slater graduated from the University of Edinburgh in 1985 and did a residency in equine medicine at the University of Cambridge, where he completed a PhD in equine infectious diseases. After lecturing at Cambridge, he moved to the Royal Veterinary College, where he is Professor of equine clinical studies. He has been the biosecurity advisor at the Equestrian Olympic Games and is a director of the British Animal Rescue and Trauma Care Association and the veterinary lead for the equine rescue initiative in the UK.

Stream: Equine
Sessions:
» Ophthalmology workshop
» Practical biosecurity planning for horse farms – how to put together a biosecurity plan
» Equine rescue and emergencies
» Dermatology workshop
» Strangles – practical management of outbreaks
» Vaccination and infectious disease control
» Eye trauma and emergencies

Dr Michelle Tilghman
Michelle is a member of the American Veterinary Medical Association, International Veterinary Acupuncture Society, American Acupuncture Veterinary Academy, and the American Holistic Veterinary Medical Society. A graduate of the University of Georgia’s Veterinary Medical College, she has focused her career on complementary modalities, utilising her Western education coupled with her knowledge of Eastern medicine. She is a contributing author of the second edition of Veterinary Acupuncture: Ancient Art to Modern Medicine.

Stream: Acupuncture
Sessions:
» Intervertebral Disc Disease: acupuncture to help make your patients four-footed again
» Diagnosis and treatment of canine lameness with the muscle channels
» Osteoarthritis, a multimodal approach for joint health
» Trigger points in today’s model of veterinary medicine. What is the point?

Plenary sessions

Monday 25 May 2015, 8.00am-10.00am
Welcome: Dr Julia Nicholls OAM, AVA President
Topic: From Vet School to the Nobel Prize and Beyond
Speaker: Professor Peter Doherty AC
Peter Doherty shared the 1996 Nobel Medicine Prize for discovering the nature of the cellular immune defence. Based at the University of Melbourne and also spending part of his year at St Jude Children’s Research Hospital, Memphis, he continues to be involved in research directed at understanding and preventing the severe consequences of influenza virus infection. In addition, Peter goes in to bat for evidence-based reality, relating to areas as diverse as childhood vaccination, global hunger and anthropogenic climate change.

Tuesday 26 May, 2015 10.45am-11.45am
Topic: Having it all doesn’t mean doing it all
Speaker: Annabel Crabb
Acclaimed journalist and political commentator Annabel Crabb has been covering national politics for more than 15 years. She completed arts and law degrees at the University of Adelaide but decamped when a legal career threatened to become a reality. Annabel has worked in radio and television on shows including Good News Week, Q&A and Gruen Nation, as well as being a regular on the ABC’s Insiders program. She is the chief online political writer for the ABC, presenter of The Drum on ABC News 24 and hosts her own TV program, Kitchen Cabinet.

Wednesday 27 May 2015, 2.30pm-3.30pm
Topic: Why economists matter
Speaker: Michael Knox
Michael was an Australian Trade Commissioner serving in Saudi Arabia and Indonesia before joining Morgans Stockbroking in Sydney in 1988. He was Chief Institutional Options Dealer, an economist and strategist. From 2003 to 2012, he was Chairman of the Advisory Committee of the School of Economics and Finance at the Queensland University of Technology. In 2008, Michael joined the Board of The City of Brisbane Investment Corporation Pty Ltd and is the current President of the Economic Society of Australia (Qld) Inc.

Thursday 28 May, 2015 11.30am-12.30pm
Ben Cunneen Memorial Plenary
Topic: One health and superbugs; The ever growing threat that includes our food supply
Speaker: Professor Peter Collignon AM
Professor Collignon is an infectious diseases physician and microbiologist at Canberra Hospital. He is currently Executive Director of ACT Pathology. Peter is also a professor at the Australian National University Medical School. He is active in many public health advocacy issues. Particular interests are antibiotic resistance, infection control and hospital acquired infections. Peter’s research is widely published in Australian and International journals. He is a member of many national and international committees including as an expert to the World Health Organization (WHO) on the issue of antibiotic resistance and the use of antibiotics in food animals.

Advanced Anaesthesia Specialists (AAS) is a global market leader in the design, manufacture and service of innovative anaesthesia and critical care products and applications for the veterinary market. AAS delivers the future in veterinary anaesthesia and critical care. Owned by vets for vets who specialise in anaesthesia, we are leaders in innovation. We design equipment that is easy to use, comes with education, technical support and improves patient outcomes.

In the last 15 years AAS research and development has brought to the market revolutionary patented devices such as:

- Darvall Forced Warm Air Heating System
- “The Stinger”™ anaesthetic machine range
- Darvall Anaesthesia Records: SA & Equine
- ZDS Zero Dead Space Masks
- Clearview Vet Laryngoscopes
- Fail-Safe Laryngoscope Lightsource
- Rodent Face Mask Anaesthesia Blocks
- Pulse Oximeter Sensors
- The Sensa-FLO2 Oxygen Supply and Alarm System
- Heated Smooth Wall Breathing Circuits – A World First.

**Contact:** Read Hedditch

ARO Systems is focused on helping veterinary practices access the latest high quality, vet-specific imaging equipment. With over 20 years’ experience in medical technology, our team have the expertise to recommend the perfect solution, to deliver it and the support to ensure it keeps working.

We began addressing the needs of vets at a time when the landscape was dominated by adapted medical tools poorly suited for veterinary use. We are proud to have been part of the early push for vet-specific imaging equipment and continue to help vets modernise their practices and ready themselves into the future.

Understanding that each practice has unique technology needs, we work closely with owners and veterinarians to tailor a solution that maximises value for their practices and patients.

We offer our clients the best digital imaging solutions available by partnering with industry leaders.

This year we’d like to introduce our new partners; Optomed and BMV.

The Veterinary Endoscopy Specialists – Austvet Endoscopy has the widest range of new and reconditioned rigid and flexible Endoscopy equipment for small animal and equine applications. Owned and run by Ennio and Maria Matutini since 2004, we are best able to meet all your veterinary endoscopic needs in this rapidly growing field.

Olympus Australia has also appointed Austvet Endoscopy as the exclusive veterinary Endoscopy distributor in Australia and New Zealand and we are proud to offer the veterinary industry their outstanding range of endoscopic products.

We are the only Veterinary supplier in Australia capable of performing in-house endoscopic service & repairs. With over 36 years experience in the field, we are the only veterinary endoscopy specialists. Don’t take risks with your precious endoscopy equipment!

Australian Veterinary Association (AVA)
Stand 201

Unit 40, 6 Herbert Street, St Leonards NSW 2065 Australia
Telephone: +61 2 94315000 or 1300 137 309
Email: members@ava.com.au
Website: www.ava.com.au

The Australian Veterinary Association (AVA) is the only professional organisation representing veterinarians in Australia. The AVA is run by and for members, with a national office, state divisions, special interest groups and local branch networks, each providing valuable member benefits and a vast range of continuing professional development opportunities. Visit the AVA stand from Sunday to Thursday and talk to the friendly staff who will tell you about the latest on member benefits, continuing professional development, advocacy, and media activities. Come along to ask a question, sign up as a member, or find out what the AVA is doing in your part of the country. Visit the AVA stand 201, where our key special interest groups will be hosting the catering breaks.

Bambach Saddle Seat
Stand 136

4B / 3–9 Kenneth Road, Manly Vale NSW 2093 Australia
Telephone: + 61 2 89664800
Email: bambach@bambach.com.au
Website: www.bambach.com.au
Contact: Liana Arena

For over 30 Years The Bambach Saddle Seat has proudly serviced the veterinarian industry’s seating needs, globally. The Original Bambach Saddle Seat helps prevent as well as relieve occupational back, neck and shoulder strain whilst you’re treating, operating and examining, by promoting an up right posture. Musculoskeletal injuries affect an incredible 67% of veterinarian surgeons – these type of injuries are mainly due to awkward postures whilst performing procedures.

Let Bambach help!

The Bambach is the only saddle seat that is custom made to suit the user, available in over 100 colours, with a 5-year warranty and a 30-day money back guarantee.

Come see us at stand 136 for exclusive expo discounts and giveaways!
We understand each other

You can make a difference to their lives, by recommending Tri-Solfen pain relief.

Pain relief is a better choice.

Working with Veterinarians across Australia & New Zealand

Protecting the health of animals and people

Science For A Better Life

ON THIS FARM WE CARE ABOUT OUR COWS
WE USE Tylofen

ANTIBIOTIC & PAIN RELIEF FOR MASTITIS

Tylofen® is the only mastitis antibiotic in New Zealand which also contains Ketoprofen for pain relief.
- Antibiotic + Anti-inflammatory + Pain relief
- Treats infection and inflammation
- Easy intra-muscular injection once daily
- Shorter withholding periods than Tylan 200®, Tylo 200® and Tygeguard RTU®

Season after season

Continuous protection from fleas and ticks for 8 months

Bayer Animal Health

875 Pacific Highway, Pymble NSW 2073 Australia  
**Telephone:** +61 2 9391 6000  
**Email:** animal.communications.au@bayer.com  
**Website:** www.animalhealth.bayer.com  
**Contact:** Liezel Jonker

Bayer is an international, research-based enterprise with core competencies in healthcare and agriculture. The Animal Health Division at Bayer produces and markets a wide range of products to maintain the health of livestock and companion animals, as well as a range of farm hygiene products. 'Protect animals, benefit people' is the Bayer Animal Health mission statement and our philosophy – in which we are among the leaders worldwide. A responsible relationship between people, companion animals and livestock requires that we safeguard the health of animals. Keeping the close relationship healthy is not just an obligation to our animal companions, it also protects people from the transmission of disease pathogens. The team at Bayer is constantly developing new products and forms of administration. Not just for companion animals, but for millions of farm animals as well, Bayer offers extensive protection in the form of effective and safe animal health products.

BCF Ultrasound

Unit 10 / 56 Norcal Road, Nunawading VIC 3131 Australia  
**Telephone:** 1300 798 747  
**Email:** sales@bcfultrasound.com  
**Website:** www.bcfultrasound.com  
**Contact:** David Miskimmin

At BCF Ultrasound we understand the importance of patient care and pride ourselves in providing the most suitable solution in veterinary ultrasound and equipment to allow our customers to grow and improve their skills and services. Specialisation is our core strength. We are one of the leading providers of portable ultrasound and equipment solutions for the veterinary market and with fully equipped service centres in New Zealand and Australia, along with an enthusiastic and experienced team, we are able to offer world class service, sales and support.

**Education**  
At BCF we take an active role in providing the educational tools to ensure veterinarians get the best opportunity to develop within their industry as well as learning the correct techniques to perform the ultrasound procedure.

**Customer satisfaction**  
At BCF we want to ensure our customers are successful and passionately satisfied with our products, our company, our employees, our continuing education, and all other services we provide.

Bioniche Vetoquinol

**Website:** www.vetoquinol.com.au  
**Contact:** Natasha Loughrey

Bioniche Animal Health is a fully owned subsidiary of Vetoquinol. 100% dedicated to animal health, Vétoquinol is a veterinary pharmaceutical laboratory. Its activity covers the R&D, production and marketing of drugs and non-pharmaceutical products for livestock and companion animals, with a clear focus on infectious diseases, pain management and cardiology-nephrology. We now proudly add reproduction and embryo transfer, hyaluronan, and immunostimulants to our product portfolio. Ranking 10th in the world, Vétoquinol employs more than 1850 people worldwide for a turnover (2013) of 299.7m euros. Vétoquinol is passionate about being focused on our customers' needs and developing strong partnerships, whilst being devoted to the protection and well-being of animals.

Biopharm Australia Pty Ltd

111 Bronte Road, Bondi Junction NSW 2022 Australia  
**Telephone:** +61 2 9389 0000  
**Email:** arthro@ozemail.com  
**Website:** www.cartrophen.com  
**Contact:** Robert Hannon

Biopharm Australia pioneered the worldwide veterinary development of sodium pentosan polysulfate as a disease modifying osteoarthritis drug (DMOAD) under the brand Cartrophen. Cartrophen Vet (100mg/mL) is approved for dogs and horses in Australia, NZ, Chile and Argentina and for dogs in many countries, including technically demanding jurisdictions such as Japan, France, Germany, Sweden and the UK. Cartrophen Equine (100mg/mL) and Cartrophen Equine Forte (250mg/mL) are approved for horses in Australia and NZ, with Cartrophen Equine Forte also approved in the UAE.

The quality of Cartrophen products is assured by its testing laboratories that are National Association of Testing Authorities, Australia (NATA) accredited and Therapeutic Goods Administration (TGA) licensed.

Founded in Australia in the 1980s, Biopharm Australia is a world leader in the research and development of sulfated polysaccharides for use in veterinary medicine and has ongoing research and development commitments in osteoarthritis, musculoskeletal disease and cancer.
SURGIVET ANAESTHESIA, MONITORING & CRITICAL CARE PRODUCTS

SurgiVet is a world recognised leader in the supply of genuine veterinary specific equipment. One of the most well known products is the SurgiVet Advisor Vital Signs Multi-Parameter monitor. **Email:** Brett@Bova.com.au  
**Website:** www.bovavet.com.au  
**Contact:** Brett Davidson

Bova Compounding are specialists in veterinary compounding. Over the last 9 years, we have been dedicated to providing all vets an exceptional service whilst focusing all our resources on offering our highest quality medications at an affordable price to help strengthen compliance by pet owners.

We are able to make medications suitable to each individual animal by offering tailor-made solutions in a variety of delivery methods such as sterile injections, chemotherapy medication, exact dose capsules, transdermals, flavoured pastes, powders and ophthalmics.

While large commercial companies may take some medications off the market, we are able to source these drugs from overseas to continue to supply vets with both discontinued medications and any medication which might be out of stock for any reason.

Dermcare Vet

7 Centenary Road, Slacks Creek QLD 4127 Australia
Telephone: +61 7 3387 9700
Email: dermcare@dermcare.com.au
Website: www.dermcare.com.au
Contact: Susan Dwyer

Dermcare-Vet is a 100% Australian owned and operated company founded in 1981 by Professor Kenneth Mason. Professor Mason was the first veterinarian in Australia to be registered as a specialist veterinary dermatologist. He is in demand to lecture in Australia and overseas. Many of his discoveries have application to both human and animal health.

Our aim, and thus our advantage, is that we concentrate the business on a limited range of very high quality products which are developed for specific veterinary dermatological purposes. Dermcare-Vet products can be found in Australia, Asia, Africa and the Pacific where they are supported by a growing number of distribution partners.

Website: www.evds.net.au
Contact: Dr Oliver Liyou

EVDS is passionate about horses and veterinarians who care for them. We don’t to sell equipment to lay dentists – given their ongoing campaigns to deregulate veterinary acts. Oliver imported the first PowerFloat from Canada in 2002 and has since trained over 400 veterinarians at EVDS workshops.

We’ve supplied over 350 PowerFloats and an extensive list of dental equipment to Australasian vets.

The PowerFloat, despite being sold only to vets, is the most popular dental tool used in Australia and USA. EVDS is also an equine practice based that performs over 1500 dentals annually.

We only sell products that we use and believe in!

Our PF service & repairs department was overhauled in 2014 – resulting in 7-day turnaround times! We supply the Porta Safe Stocks mobile crush trailer, which we have supplied to 62 vets.

So please support us to help you and the horses you care for.
Do you want to offer your clients 4 Weeks Free Immediate Veterinary Cover?

- 4 weeks free cover from the moment the client signs up, with no obligation.
- Available for puppies & kittens from 8 weeks and before their 1st birthday.
- The insurance is valid for a period of 4 weeks from the date and time the vet practice activates the policy.
- Cover for injury/accident starts immediately. Cover for illness starts 72 hours after free insurance is activated.

Call us today on 1300 738 225 or visit petplan.com.au/vets

Génia is French company with 60 years of experience in manufacturing veterinary consumables such as e-collars, bandages, dressings, suture material, gloves. The innovative spirit that has been supporting and driving our growth since Génia’s creation has helped the company to become a market leader by providing specialized solutions in veterinary supplies. Génia focuses on the market expectations, and has made major advances in the past twenty years, especially by introducing innovative products. In 2010, we established a subsidiary in Sydney to be able to cover all Australia with our range of veterinary supplies. Our team of sales representatives, which is growing this year, is working at the veterinary practice level to promote our products and maintain a daily contact with animal health professionals. Have a look at our stand to see & touch our most recent item: Cosypad.

**Greencross Vets**

Stand 69

PO Box 8366, Woolloongabba QLD 4102 Australia

**Telephone:** +61 7 3435 3553

**Email:** tgoldstone@goltd.com.au

**Website:** www.greencrossvets.com.au

**Contact:** Tony Goldstone

Greencross was founded by like-minded veterinary surgeons wishing to improve the veterinary workplace for our teams, with a desire to deliver high quality companion animal medicine and surgery for pet owners.

Greencross understands that each veterinary practice is a local business and must be staffed by local veterinarians and veterinary nurses. The local clinic leaders are supported by the aptly named, ‘Greencross Support Office.’ This highly capable team supports the family of Greencross veterinary practices and industry related businesses throughout Australia.

The Greencross Vets Support Office removes the day-to-day stress and worries of running a business. Because Greencross was created by vets and for vets, we understand that you became a veterinarian because you wanted to care for animals.

The worries and concerns of payroll, staff education, recruitment, IT and marketing are virtually removed by the dedicated professionals within the Greencross Support Office. This infrastructure allows veterinarians to concentrate on what they trained to do; provide the highest veterinary care and standards for pets.

IDEXX Laboratories is the global leader in veterinary diagnostics and we put our customers at the centre of everything we do. With over $80 Million invested in research and development every year, IDEXX continues to advance diagnostic capabilities and improve the standards of care delivered by the veterinary profession in Australia and New Zealand.

Visit the IDEXX stand to learn more about ‘the complete diagnostic solutionTM’ and how you can:

- deliver the best standards of care possible to the pets in your care
- empower your staff with the most advanced portfolio of veterinary diagnostic products and services available today
- engage pet owners in the care of their pets and strengthen the bonds between clients and your practice
- build successful business outcomes for your practice with an integrated range of diagnostic products, services and software.

We’ve got pedigree when it comes to pet insurance.

PetSure is the name behind pet insurance in Australia, and it’s a name that’s synonymous with support: for you as veterinarians, your clients and most importantly, their pets. As the underwriter and administrator for Australia’s household-name pet insurance brands, we provide support by insuring more pets than any other provider. We support your clients with carefully designed insurance policies that help them cover the cost of medical treatments for their pet. And, should you ever need support while you’re providing those vital treatments, we’re proud to offer it in the form of our vet-to-vet hotline.

Massey University is a leading New Zealand university with a proud tradition of academic excellence and a strong national and international reputation. Massey specialises in veterinary science, agri-food, animal welfare and biosecurity. Massey was the first university in the Southern Hemisphere to be accredited by AVMA.

With over 50 years of experience in distance education Massey has taught more than 250,000 students via distance learning globally. Flexible online learning is enhanced by our early adoption of technology and our extensive distance student support services. Our staff provide consultancy services in digital and distance teaching and learning.

Postgraduate courses in Massey University’s distance Master of Veterinary Medicine (MVM) allow you to study around work and life commitments: complete one subject for interest, or study towards a qualification. Our internationally-recognised lecturers bring an in-depth, personal approach to teaching that sets the MVM apart.

**Mavlab Animal Health**

Email: Merial_Australia@merial.com or emma.copeland@merial.com
Website: www.merial.com.au
Contact: Emma Copeland

Merial is a global animal health company with operations in more than 150 countries and employing 6,200 people worldwide. Our range of pharmaceutical products, vaccines and services enhance the health and well-being of companion animals (dogs, cats and horses), production animals (cattle, poultry, swine), and wildlife (including endangered species).

Methsof

Level 3, 480 St Kilda Road, Melbourne VIC 3161 Australia
Telephone: +61 3 9867 2785
Email: james@methsof.com.au
Website: www.vetdd.com.au
Contact: James Gold

Methsof are the proud suppliers of software solutions, including the extremely popular electronic drug register ‘DD Book’, used by community pharmacies nationally for over 5 years.

Methsof are excited to be entering the veterinary market with the release of an electronic drug register specifically targeted towards veterinary clinics, called Vet-DD.

Vet-DD will assist veterinary surgeons and veterinary technicians/assistants by greatly reducing their administration workloads. Vet-DD streamlines and automates the process of recording DD (schedule 8 drug) transactions, meaning no more manual recording in paper books as well as faster and easier access to reporting, stock checks and reconciliations, saving the business valuable time and effort.

Microchips Australia

22 Fiveways Boulevard, Keysborough VIC 3173 Australia
Telephone: +61 3 9706 3165
Email: doug@microchips.com.au
Website: www.microchips.com.au
Contact: Doug Black

Microchips Australia, the sole Australian distributor of Trovan microchips and readers, is the only microchip supplier that can provide both conventional-sized and the small Midi-Chips in any format of your choice (‘in needle only’ format for use with a re-usable syringe-style implanter or an ‘all-in-one’ disposable implanter, needle and chip format).

For use in companion animals & horses & available direct from Microchips Australia or via most veterinary wholesalers around Australia, Trovan microchips are sold as a “Chip&Life” package that includes a lifetime registration with the nationally accredited and licensed animal registry, Central Animal Records (CAR).

Microchips Australia also supplies an even more extensive and innovative range of microchips and reading systems for zoos, wildlife research, laboratories and general industry.

Microchips Australia is also the Australian distributor of the Petrek GPS Pet Tracker, a new GPS pet tracker that has a range of great features using a dedicated smartphone App.

Randlab Veterinary Medicines is a wholly Australian owned and operated animal health company founded in Sydney in 2004. Since its inception Randlab Australia has grown to become a well-established and highly reputable participant in the Australian equine veterinary medicines landscape. In 2009 Randlab established operations in New Zealand where it currently runs a stand-alone entity offering its New Zealand clientele service of the highest standard. Randlab is primarily dedicated to the health and wellbeing of high performance and breeding horses. In more recent times Randlab has commenced branching out into the small animal and cattle medicines markets and is looking to expand these interests in the coming year(s).

Randlab is a significant sponsor of many veterinary industry groups including both the Equine Veterinarians of Australia (EVA) and the New Zealand Equine Veterinarians Association (NZEVA). Randlab is proud and excited to be part of the 2015 Pan Pacific Veterinary Conference.

Telephone: 1300 661 821
Email: acarter@safe4-aust.com.au
Website: www.safe4-aust.com.au
Contact: Alf Carter

Safe4 All (Aust) Pty Ltd is the leading veterinary supplies company, chosen by Veterinary Surgeons, Breeders, Animal Charities, Zoos, Kennels and Catteries across the world for over 18 years.

Safe4 Disinfectant, primarily developed within the harsh environment of animal welfare where highly effective disinfection is paramount to reduce the cross infection of harmful virus and bacteria under very difficult conditions.

Free from aldehydes, phenols, alcohol. Non: toxic, irritating, corrosive, tainting and staining at all recommended dilutions making it safe for the user and the patient whilst it performs its highly effective job.

Safe4 is water based, biodegradable, eases the logistics of disinfection as the patient and user can be exposed to the disinfectant whilst wet. A neutral pH of approximately 7.6 at the recommended dilutions saves water and doesn’t require rinsing.

Safe4 disinfectant is the only product in the veterinary sector with DEFRA approval for three notified orders, APVMA certification pending.

SilverGlide  Stands 10 & 11

Website: www.silverglide.com.au
Contact: Julia Delany

SilverGlide – Est. 2104
Suture Manufacturers – Wound Closure Specialists

This Australian family company has been established due to demand by veterinary surgeons for high quality, low cost sutures. Providing an ever-widening range of general and specialist sutures and are most sensitive to suggestions from Australian and New Zealand Veterinarians.

Recently, the cost of swaged sterile sutures has become unacceptably high as a consequence of the largely multinational distribution model. To address this situation, SilverGlide manufactures hospital quality sutures and sells them direct, with no wholesale mark-ups.

Ask us about our high visibility fluorescent sutures when you visit our stands 10 and 11 at the exhibition.

To complement our sutures, we have been encouraged to import a range of high quality German stainless steel instruments.

All our SilverGlide instruments are medium priced and carry a 5-year manufacture’s warranty.

We’re looking forward to discussing your needs.

Telephone: +61 42 722 2021
Email: melissa.hawse@slade.net.au
Website: www.slade.net.au
Contact: Melissa Hawse

From our dedicated veterinary laboratory we provide compounded medication to veterinarians across Australia. We can work with you to develop the right solution for each individual animal.

Compounding can help veterinarians solve a number of challenges such as:

• lack of approved veterinary drugs for many species
• discontinuation of drugs traditionally used but which are still needed for animals
• problems with strengths of commercial medications or some of the ingredients
• difficulties of administering medications to family pets.

As veterinary pharmacy experts we provide tailored and caring advice on how to best treat your patients. We will work with you to find solutions to your most complex problems because we know every animal is unique.

We are able to supply anywhere in Australia.

Veterinary Science graduates from The University of Queensland are recognised, sort after and accredited to practice around the world. Major ingredients in our success are the partnerships we have with industry and veterinarians.

Together, we have created ‘UQ VET clinics’. The VET clinics comprise our UQ Veterinary Medical Centre, Equine Hospital, Small Animal Hospital and Dayboro Veterinary Surgery. This collection of clinics provides specialist referral services for veterinarians and general services for owners of companion animals, horses, farm stock, exotics and native fauna.

Beyond the world class veterinary facilities at UQ Gatton and Dayboro, we deliver specialist services to the sector through the Animal Genetics Laboratory and Diagnostic Services. Together, these provide vet clinics with genotyping and standard pathology services as well as cutting edge technologies and diagnostics not available through commercial laboratories.

The Veterinary Information Network (VIN) is the premier online community, continuing education, and information resource for veterinarians. Founded in 1991, VIN reaches over 50,000 veterinarians, veterinary students, and industry partners worldwide. VIN is the leader in unlimited access to medical, product and practice management information. For a free one-month trial membership, join us at www.VIN.com, phone 800-700-4636, or email VINGRAM@vin.com. Let us show you why VIN is the best online resource for veterinarians. VIN will provide a free internet café at the Pan Pacific Veterinary Conference, so please stop by to check your email, surf the web, and try VIN!

**Veterinary Specialist Services**
Cnr Lexington and Logan Roads, Underwood QLD 4119 Australia
**Telephone:** +61 7 3841 7011  
**Email:** vss@vss.net.au  
**Website:** www.vss.net.au  
**Contact:** Adj. Prof. Philip Moses

Veterinary Specialist Services began in 2000 in a small complex with only six staff. Today we are proud to make available to our referring vets, their clients and pets, two purpose built hospitals: Underwood on the southside of Brisbane, and Carrara located on the Gold Coast. Together with our exceptional team of professional and experienced specialist veterinarians, nurses and support staff, we are able to provide services in surgery, internal medicine, oncology, cardiology, dermatology, dentistry, ophthalmology, emergency & critical care and animal physiotherapy.

Our facilities are complete with MRI (Underwood) and CT (Gold Coast), digital radiography, ultrasonography, fully equipped pet intensive care units, and surgical procedures including total hip replacements, arthroscopy, laparoscopy, endoscopy and much more. VSS also understands the important of continual education within the industry and offers range of opportunities such as seminars, workshops, internships, journal clubs and newsletters.

**Vetlink Employment Service**
7 / 21 McCabe Street, North Fremantle WA 6159 Australia
**Telephone:** +61 8 9430 9990  
**Email:** mark@vetlink.com.au  
**Website:** www.vetlink.com.au  
**Contact:** Mark Eagleton

Vetlink Employment Service is an Australian based specialist recruitment agency for the veterinary industry. Since 1997 over 10,000 locum and permanent placements have been made by Vetlink throughout Australia, the United Kingdom, Ireland, New Zealand, Asia, Canada and other countries.

Vetlink is owned by Dr Mark Eagleton BSc BVMS, a qualified veterinarian with over 15 years' recruiting experience.

Vetlink has consultants based in Perth, Sydney and Melbourne. Each consultant at Vetlink has a veterinary background and/or extensive recruiting experience. Unlike many other recruitment agencies Vetlink caters only to the veterinary profession.

Placements are made into private practice, industry, government, universities and animal welfare organisations.

Contact: John Evans

VetQuip offers an extensive range of products and services to meet the specialised needs of veterinarians, universities, research facilities and zoos.

VetQuip is a veterinary importer distributor and manufacturer that specialises in supplying customers with an extensive range of veterinary products from Anaesthesia, Monitoring, Lighting Orthopaedic equipment, stainless steel cages, surgical tables and much more.

With a comprehensive line of products and equipment from leading manufacturers worldwide, it is no wonder that veterinarians trust VetQuip for the very best products and equipment for their practices.

If you are looking for a specialty item, specific piece of equipment or a hard to find item? Let one of our skilled staff members help you find what you are looking for.

Our staff are committed to providing you with personalised service and great products.

Vets Beyond Borders
Community Stand 200
Level 3 / 40 Gloucester Street, The Rocks NSW 2000 Australia
Telephone: +61 2 8003 3691
Email: maryann.dalton@vetsbeyondborders.org
Website: www.vetsbeyondborders.org
Contact: Maryann Dalton

Vets Beyond Borders (VBB) is an Australian-based, not-for-profit, organisation established 2003. VBB works with communities in developing countries in the Asia Pacific region bringing veterinary based animal and public health programs to these regions. A high rate of success has been in the introduction of the SARAH (Sikkim Animal Rabies and Animal Health) program in Sikkim in India where this program has prevented any rabies cases being reported since 2008.

The VBB program VetTrain undertakes the clinical training of local veterinary personnel to build on their skills.

VBB has undertaken projects in China, Vanuatu and India and is looking to expand its projects to other countries in the Asia Pacific region including Australia. For more information and ways you can help VBB, drop by the VBB stand at PanPac in Brisbane.

VetShare
Stand 111
98 Long Street, Smithfield NSW 2164 Australia
Telephone: 1300 83 85 83
Email: info@vetshare.com.au
Website: www.vetshare.com.au
Contact: Cath Colton

VetShare Limited is a public company incorporated in Australia and commenced trading in August 2012. Our vision is to be the Preferred Veterinary Wholesaler in Australia and to date have received great support from our Shareholders and industry partners.

VetShare understands that in the local veterinary wholesale market there is a significant presence of foreign-owned companies which has resulted in reduced local ownership and control. VetShare is principally owned by veterinarians and employees of VetShare and supplies to shareholders and non shareholders in all states of Australia.

For flexible pricing, an outstanding rewards program, amazing service and veterinary practice management systems support contact VetShare today.

VetShare – Vet owned for all vets.

Vetsone IT Pty Ltd
Stand 53
58a Central Avenue, Oak Flats NSW 2529 Australia
Telephone: + 61 4 1727 7610

Website: www.vetsone.com
Contact: Mark Weingarth

Vetsone IT is a Veterinary business IT solutions company based in Australia and is entirely Australian owned and operated by practitioners working actively in the profession.

We provide a variety of IT support services to the profession:

- Sale and Support of QuickVet, our fast and efficient Practice Management Software
Exhibitor profiles

• VETS-APP: Vets-App is an on-line APP designer which allows the Clinic to manage all aspects of a business APP for their clients. You can do all the design yourself or we can do it for you with professional graphic designers.
• MOZY PRO: We are distributors for this world class Cloud Backup service.
• RADCLOUD, our integrated cloud-based RIS/PACS and Medical Image Archival & Storage Solution.
• TYRO Merchant Integration. Integrated into our QuickVet PMS so you improve the efficiency and accuracy of your EFTPOS transactions with Australia's only NON bank EFTPOS merchant.

Virbac

361 Horsley Road, Milperra NSW 2111 Australia
Telephone: 1800 242 100
Email: info@virbac.com.au
Website: www.virbac.com.au
Contact: Bill Dixon

Virbac is one of Australia's top three specialist animal health companies and is also the largest independent company worldwide exclusively dedicated to animal health. Virbac has a large range of quality and innovative pharmaceuticals including, an extensive dermatology range (Rilexine Palatable, Cortavance, EasOtic and more), Canigen and Feligen Vaccines, BackHome Microchips, dental range (Aquadent and Hexarinse) and reproductive range (Suprelorin and Alizin).
Virbac also offers a number of services including the Partnership Loyalty Program and Disease WatchDog (www.diseasewatchdog.org), helping veterinary practices offer more to their staff and clients. Virbac is proud to support the veterinary profession so come and visit stand 59–60, where staff with commercial and technical expertise will be available to show you new products and discuss how we can work with you to build your business with our range of products and services.

Zoetis

Level 6 / 5 Rider Boulevard, Rhodes NSW 2138 Australia
Telephone: 1800 963 847
Email: Australia.AnimalHealth@Zoetis.com
Website: www.zoetis.com.au
Contact: Paul Bridgman

Zoetis is a global animal health company dedicated to supporting its customers and their businesses in ever better ways. Building on 60 years of experience as Pfizer Animal Health, we deliver quality animal medicines and vaccines, complemented by diagnostics products and genetics tests and supported by a range of services. We are working every day to better understand and address the real-world challenges faced by those who raise and care for animals in ways they find truly relevant.
Our name, Zoetis (zo-EH-tis), has its root in zo, familiar in words such as zoo and zoology and derived from zoetic, meaning pertaining to life. It signals our dedication to supporting the veterinarians and livestock producers everywhere who raise and care for the farm and companion animals on which we all depend.

WILEY

PO Box 1226, Milton QLD VIC 4064 Australia
Telephone: + 61 7 3859 9611
Email: custservice@wiley.com
Website: www.wiley.com
Contact: Wiley Customer Service Australia

Wiley is a global provider of content-enabled solutions that improve outcomes in research, education, and professional practice. Our core businesses produce scientific, technical, medical, and scholarly journals, reference works, books, database services, and advertising; professional books, subscription products, certification and training services and online applications; and education content and services including integrated online teaching and learning resources for undergraduate and graduate students and lifelong learners. Founded in 1807, John Wiley & Sons, Inc. (NYSE: JWA, JWB), has been a valued source of information and understanding for more than 200 years, helping people around the world meet their needs and fulfill their aspirations. Wiley and its acquired companies have published the works of more than 450 Nobel laureates in all categories: Literature, Economics, Physiology or Medicine, Physics, Chemistry, and Peace.

ZebraVet

27 Sperling Street, Rocklea QLD 4106 Australia
Telephone: +61 7 3275 3733
Email: amanda@zebravet.com.au
Website: www.zebravet.com.au

| 8.00-8.50  | Tyrosine kinase inhibitors and their current use in veterinary oncology  
Cells have many receptors on their surfaces. If we can block them we delve into the world of small molecule receptor blockers and the new direction for modern oncology  
Maurine Thomson | Interdog aggression in the family  
Fighting between co-habiting dogs is not simple but it is not that difficult either- you just have to know what's really going on  
Jacqui Ley | Data from 2015 paraprofessional survey on stress and compassion fatigue  
Findings of the 2015 Compassion Fatigue, Stress and Wellbeing Survey of Australasian veterinary nurses and paraprofessionals  
Rosie Overfield | The equine stifle – new diagnostic and treatment options  
Summary and update on advances in diagnosing conditions of the stifle and application of new treatments for stifle lameness  
Barry Fraser |
| 9.00-9.50  | Latest information for melanomas and surgical margins of commonly encountered tumours  
New information regarding the latest treatment options and prognosis for oral melanoma. Are we over treating these tumours surgically?  
Maurine Thomson | Diagnosis of aggression with case studies  
You’ve had all the theory, now it’s time to see how it all fits together in a behaviour case with dogs, cats and horses presented  
Jacqui Ley | Ideas for creating emotionally-healthy workplaces and staff wellness programs  
Rosie will share practical ideas for creating high-performing workplaces and wellness programs  
Rosie Overfield | The digital flexor tendon sheath – diagnosis, treatment and outcomes  
Discussion of how to recognise and diagnose conditions of the DFTS, treatment options and evidence-based prognoses  
Barry Fraser |
| 10.00-10.30 | Morning Tea in Exhibition | | | |
| 10.30-11.20 | Small Animal Stream sponsored by Idexx Laboratories | Behaviour | Practice Management | Public Health |
| | Approach to the Bleeding Patient  
This presentation will review the approach, diagnosis and treatment of some common cause of bleeding in small animals  
Daniel Chan | Canine neurophysiology  
Understanding the anatomy and physiology behind behavior and learning in dogs  
Meghan Herron | Practices of Excellence Presentations: Two ‘award winning’ practices share their insights into running an ‘excellent’ practice | Does CC22 MRSA spread bidirectionally between horses, vets and the public?  
The bidirectional movement of globally disseminated methicillin-resistant Staphylococcus aureus ST22-IV in companion animals, horses, vets and the public in Australia  
Sam Abraham |
| 11.30-12.30 | Ben Cunneen Memorial Plenary: Peter Collignon – One Health and superbugs; the ever growing threat that includes our food supply | | | |
| 12.30-2.00 | Lunch in Exhibition | | | |
| 2.00-2.50  | Raw Food Diets; What’s the Story?  
The growing popularity of raw food diets in companion animals has highlighted a number of issues including pet owners questioning the appropriateness of conventional manufactured pet food. The practice of feeding raw foods has a number of hidden and not-so hidden dangers that pet owners and veterinarians should be aware of  
Daniel Chan | Animal shelters: Addressing behavior and welfare issues in kennelled dogs  
A discussion of how the kennel environment in many shelters can be stressful and how shelter staff can both identify and reduce that stress in order to improve canine welfare  
Meghan Herron | Alternative advertising on Facebook: using Facebook’s advertising to market your business  
Find out how to get around the Facebook “throttle” of only showing your post to 6% of people who like your page  
Kelly Baltzell | Eye trauma and emergencies  
A case-based session covering approach to the eye trauma case, triage and decision making for medical and surgical treatment  
Josh Slater |
| 3.00-3.50  | Feeding the Critically Ill Patient  
As nutritional support is now considered an integral part of managing critically ill patients, this presentation will focus of assessing patient’s needs for nutritional support and strategies for introducing feeding in hospitalized animals  
Daniel Chan | Feline aggression directed towards humans  
An overview of diagnosis, managing and treating common human-directed aggression problems in cats  
Meghan Herron | Inside Facebook insights: Understanding Facebook data to improve your page and bottom line  
Facebook is all about data. Learn how to read reports to customise your Facebook Page to reach the greatest audience  
Kelly Baltzell | Ophthalmology workshop  
This workshop session will use a series of case examples to work through diagnostic decision making for cases of eye trauma, corneal injury, keratitis, iris disease, lens disease, uveitis, chorioretinopathy and neoplasia  
Josh Slater |
<p>| 4.00-4.30  | HIGH TEA in FOYER (champagne!) | | | |
| 4.00-5.30  | Member Forum - Convincing the public to pay vets what they’re worth! facilitated by Jane Caro | | | |</p>
